## Upheaval of Yesterday Was A Result Of Attempt Of Citizens' Committee To Clean Out The Grafters.

### "BOSS" RUEF'S BRAZEN ARROGANCE

#### In Having District Attorney Removed On Trifling Charges And Himself Appointed So As To Halt The Grand Jury, Was Checked By The Court.

Under the late Associated Press dispatches yesterday, particulars were given of how the attempt of "Boss" Ruef to seize the district attorney's office at San Francisco and thus prevent a possible indictment of himself and associates for grafting was checked by a judge of the superior court issuing a temporary injunction restraining Ruef and others from interfering with the district attorney. Ruef had been appointed district attorney Thursday by acting Mayor Gallagher, his creature, who at the same time removed District Attorney Langdon from office. The case was set for hearing next week Friday. During the proceedings, yesterday afternoon and for an hour earlier there was a crowd of 3,000 assembled at the court of Judge Thomas Graham, where the final member of the new grand jury was to be chosen and where it was expected the court would settle the question of recognition of either Langdon or Ruef. Judge Graham declined to pass upon the issue until Monday. As Ruef made his way from the courtroom to his automobile amid the crowd's hiss, an individual who had been elected tried to strike him, but was prevented from doing so by the police.

#### A War on Graft

Rumblings of San Francisco's war on graft have been heard for months back, but they became louder within two weeks and the agitation which has just resulted in the worst scandal that has ever shaken the city, started with impelling force.

The action of Acting Mayor Gallagher in removing District Attorney Langdon Thursday night came as a tremendous surprise, following the sensation of a few days ago, when it was announced that Francis J. Henry, who has national fame as a prosecutor, had been appointed assistant district attorney to investigate the charges of graft. Two days ago it was reported that Gallagher would take such action and the press has been speculating whether or not he would have the boldness to take the step, particularly as considerable newspaper criticism has been directed against him as a supervisor.

#### Mayor Schmitz in Europe

Mayor Schmitz, who is serving his third term as mayor, having been elected by the union labor party, is now in Europe on a sixty days' leave of absence and Supervisor Gallagher is acting in his stead. It is conceded everywhere that the suspension of District Attorney Langdon was made solely for the purpose of getting rid of Henry. For the past few months Henry has been investigating charges of official boodling and has been assisted by a corps of private detectives in charge of William J. Burns, a noted federal secret service agent.

#### Poor Men Suddenly Rich

A score of men who come into public life through the recent political upheavals, who were poor, in purse, have recently been exhibiting signs of wealth, the way of handsome homes, costly business places and lavish expenditures of money. Henry had declared he had obtained knowledge of how these men suddenly acquired riches were obtained.

It has been openly charged that many saloons, the criminal classes and disorderly houses were severely taxed to be allowed to flourish in peace. The board of public works has also been accused by taxpayers and newspapers with levying tribute in all directions. This board has almost an absolute control of the construction of buildings and it is alleged has illegally taxed contractors and house owners before allowing the erection of new edifices.

#### \$700,000 Paid by Car Line

One newspaper has been constantly insisting that \$700,000 was paid by a street railway company for certain important privileges and declared that it could furnish proofs to an honest grand jury. This was one of the matters to be presented to the new grand jury.

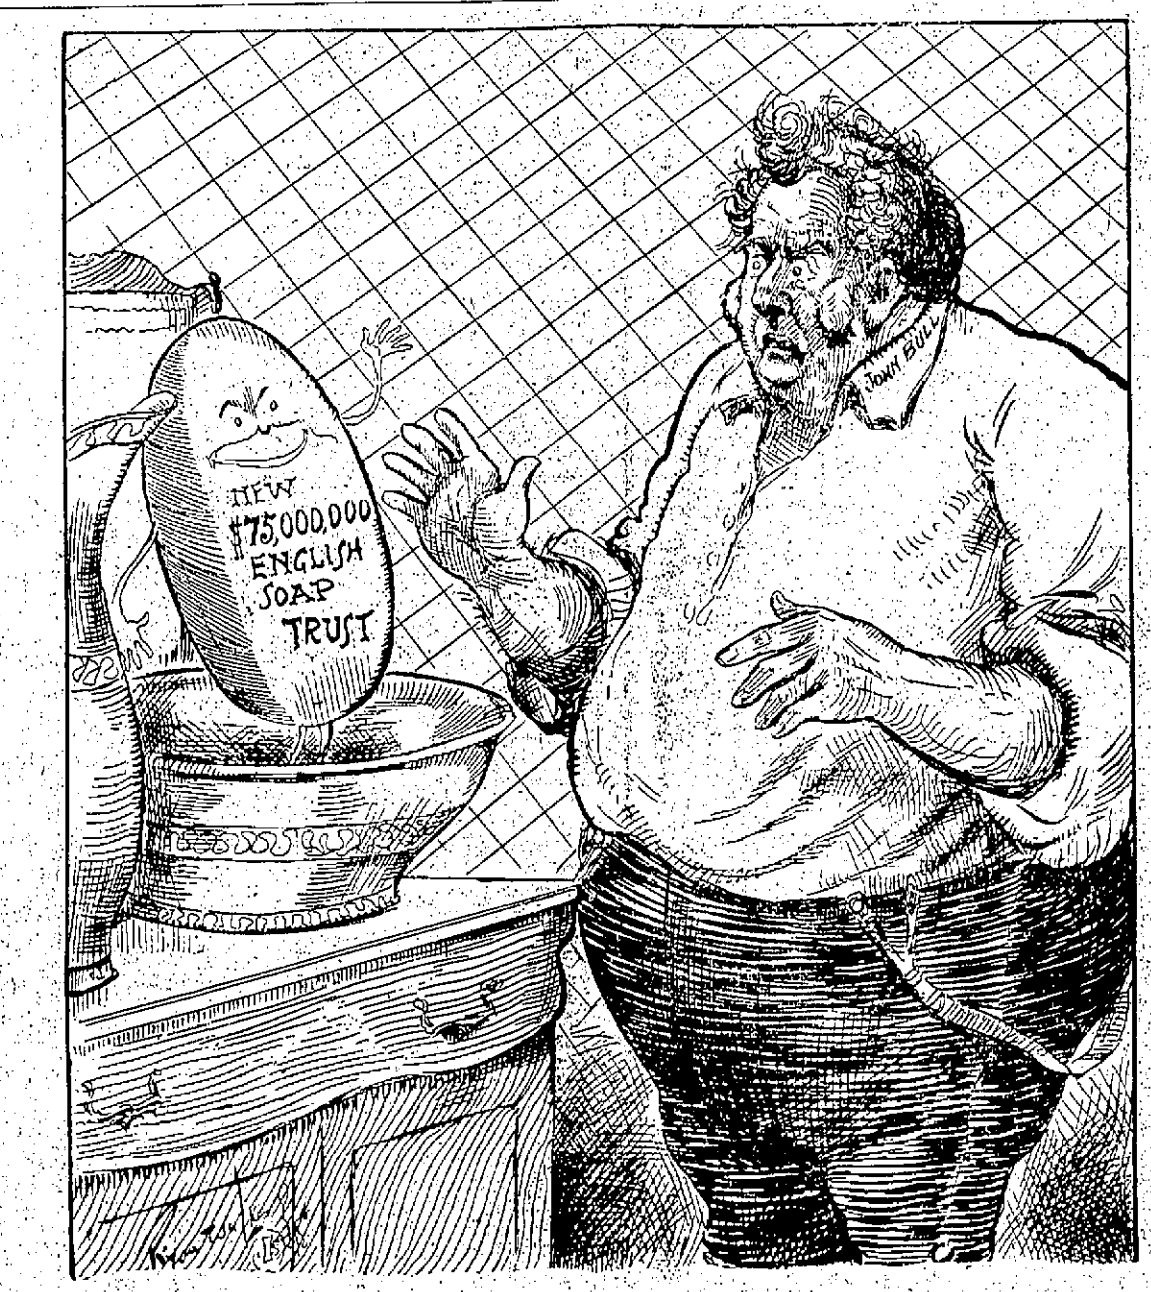

Coupled to many of these insinuations and rumors is the name of Abraham Ruef, the acknowledged boss of the politics of San Francisco and commonly known as "Abe" Ruef. He is a lawyer and it is he who has been appointed by the acting mayor to the position of district attorney. Ruef is acknowledged to be a man of rare ability, learned in his profession and a skilled politician. He is credited with having become very wealthy within the past few years.

#### Ruef Is Schmitz' Ally

When Schmitz was first elected mayor he publicly announced that he attributed much of his success to "his friend Ruef" and ever since has been on acknowledged intimate relations with the political leader.

Ruef has often been termed the "power and guiding hand behind the municipal throne."

Acting Mayor Gallagher at the meeting of the board of supervisors Thursday night read a long statement giving

### LA FOLLETTE WILL TALK NEXT WEEK IN MARINETTE

In His Addresses Yesterday He Again Ignored Connor and Denied Return of New Party.

[SPECIAL TO THE GAZETTE.] Marinette, Wis., Oct. 27.—La Follette and Lenoir have been booked by the county committee to speak here Saturday and Wednesday next, respectively.

The feature of Senator La Follette's second day of campaigning in Dane county was his emphatic denial that he intended to attempt to found a new political party or leave the republican party for any other party now in existence. As in his speeches Thursday, he refrained from mentioning the name of any candidate on the state ticket, except that of Gov. Davidson. He was heard at Middleton, Mr. Vernon, and Oregon. A second feature of his speeches was an attack on the late Senator Sawyer. He said that when he was in the house of representatives the Oshkosh senator, not using his name, came to him and sought his aid in an alleged land-grabbing deal.

### NEWS FORECAST OF COMING WEEK

LAST LICKS OF CAMPAIGN WILL BE PUT IN.

### RUSSIAN STRIKE IMMINENT

Six Months' Exposition in New Zealand Opens—Wedding of American Interest in London.

Washington, D. C., Oct. 27.—The final stage of the political campaign of 1906 begins Monday, and during the ensuing six days the politicians will be kept busy with the wind-up. Public interest will center chiefly, of course, in the contest in New York, where Mr. Hearst promises a spectacular finish of his whirlwind campaign. It will be a stuporous week likewise for the republicans, who will have Secretary Root, Secretary Shaw, and other leaders of national fame in the state to help out Mr. Hughes, the gubernatorial candidate. The campaign will be brought to a spectacular close Saturday night with rousing meetings of both parties in Greater New York.

Though most interest is taken in the New York contest the close of the campaign in Massachusetts, Rhode Island, Iowa, Kansas and Colorado will attract attention. In each of these states the contest this year is felt to be of more than ordinary interest.

Recent dispatches from Russia indicate that some uneasiness is felt in official circles regarding the outcome of the proposed celebration on Tuesday next, which is the anniversary of the imperial manifesto granting a measure of self-government to the people. It is feared that a great strike may be inaugurated on that day as a result of the popular discontent.

On Wednesday stockholders of the Cleveland, Cincinnati, Chicago & St. Louis railroad will meet to approve the recommendation of the directors for an increase in the company's common stock from \$40,000,000 to \$50,000,000. It is proposed to use the new stock for construction and equipment.

The great International New Zealand Exhibition, on which the government has spent great sums, is scheduled to open on Thursday next. The exhibition is expected to attract a great number of tourists to New Zealand during the coming six months.

The seventh biennial convention of the National Lutheran League will begin Tuesday at Canton, Ohio, to continue in session three days.

A wedding of interest on this side will take place in London next Saturday, when Miss May Cabendish-Bentick, daughter of Mrs. George Cavendish-Bentick, who was Miss Elizabeth Livingston of New York, becomes the bride of Mr. John Ford, first secretary of the British legation at Copenhagen.

The building houses also a gymnasium, swimming pool, employment bureau, free dispensary, reading rooms and restaurant. The dedicatory exercises tomorrow will occupy the entire afternoon and evening. Col. William Evans provincial officer for New York, will be master of ceremonies, and Miss Eva Booth, commander of the forces in America, will deliver the principal address.

Two bombs were thrown in quick succession at the vehicle. The guards escorting the wagon fired a volley at the robbers and one of the latter was killed, another wounded and a third captured. # PRINCE AND ACTRESS TO BE MARRIED TOMORROW

## Second Cousin Of Emperor Wilhelm To Take For Bride Former Member Of Milwaukee Theatre Stock Company.

[SPECIAL TO THE GAZETTE.] Berlin, Oct. 27.—German, and particularly Berlin, society is deeply stirred over the wedding of Prince Joachim Albrecht of Prussia, second cousin of the Emperor, and the German actress, Mme. Marie Sulzer, which is announced to take place tomorrow. Prince Joachim, second son of the late Prince Albrecht of Prussia, is 30 years old, and holds the rank of major in the 1st Regiment of Grenadier Guards, stationed in Berlin. He possesses exceptional musical talents, and has composed several light operettas. He is also a painter of no mean order.

Mme. Sulzer is about ten years older than the Prince, and she is not very beautiful, nor is she an actress of the very first rank. She plays second-rate roles at the Triamion theatre, where French plays of a certain character are regularly produced. She is unusually tall, and her dimensions are almost gigantic. She was first married to Baron Liebenberg, but the union was terminated by a divorce within a short time of the wedding. She spent some time in America, and in 1898 was a member of the German stock company at the Fabel theatre in Milwaukee.

Prince Joachim's attachment to her has been the subject of gossip for some time past, but it appears that the Prince preferred not to marry her during his father's lifetime. The late Prince Albrecht, who died but a few weeks ago, was a man of the most Puritanical ideas, the strictness of whose Lutheranism led him to hold theatres in such abhorrence that although as Regent of Brunswick he was compelled to subsidize the court theatre, there he never crossed its threshold unless forced to do so in his capacity as host at some gala performance given in honor of a royal or imperial guest. There are indications that the father either knew or suspected his son's intention, for Prince Joachim Albrecht has been partially disinherited by his father's will, and will receive only that proportion of his father's property required by Prussian law, which protects near relatives from total disinheritance. In the ordinary course of things, Prince Joachim Albrecht would have inherited about \$7,500,000, but under the special provisions of his father's will he will receive only \$1,000,000. He thus sacrifices a large sum by his attachment to the actress.

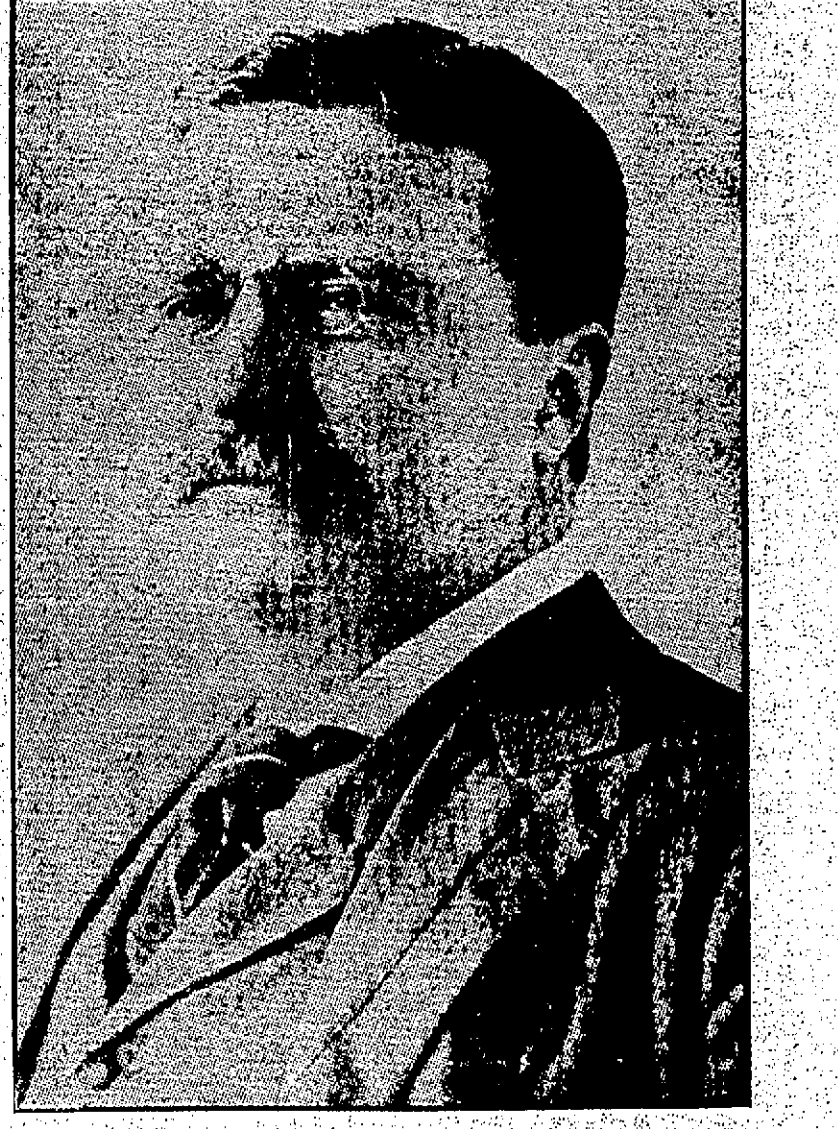

# WALL STREET EXPECTS INCOME TAX WILL WIN

## Success Of Roosevelt With Railway Rate Legislation Makes His Present Fight Promising.

[SPECIAL TO THE GAZETTE.] New York, Oct. 27.—Financial circles in this city are very much interested in that portion of President Roosevelt's forthcoming message to Congress which is expected to deal with the subject of taxation of incomes, inheritances etc., and the general question of control of wealth amassed from public privileges. Wall street fears that the temper of the country, supposed to be responsive to the anti-capitalistic appeals of Bryan, La Follette, Moran and others, may encourage the President to draw it pretty strong in his suggestions for taxation of wealth.

In his public utterances and writings for nearly a year past Mr. Roosevelt has approached the question tentatively. In his Pennsylvania speech a short time ago he elaborated somewhat his views, and it is said by those who have talked with him recently that he will be prepared to address Congress still more definitely. He may not lay down the actual lines of proposed legislation, because the short session of Congress could hardly deal with questions of such far-reaching importance, but it is quite generally believed that he will arouse the country and set the senators and representatives to thinking and talking.

### Forty-Eight Roses Deck Roosevelt's Desk On His Forty-Eighth Birthday

Washington, D. C., Oct. 27.—The President's desk was graced today with a huge bouquet of forty-eight roses in token of his forty-eighth birthday. There was no special observance of the anniversary, though the cabinet members and other high officials of the government who are in the city called at the White House during the day and presented their congratulations. Numerous messages of felicitation were also received from all sections of the country.

## AMONG FOUNDRYMEN

Foundry workers are complaining  
of a strange malady which physicians  
say is caused from the intense heat  
and dust to which the men are ex-  
posed. The pores being opened by  
the heat are clogged with the dust  
that fills the air and makes it impos-  
sible for the impurities of the body to  
pass out in the natural way. The  
blood becomes filled with poisons and  
sickness follows.

Jos. Coughlin, a stove worker living  
at 125 Sixth Street, Detroit, Mich.,  
recently recovered from a protracted  
illness caused in this way. Regarding  
his case Mr. Coughlin said:

"In the spring and fall I was al-  
ways worse. A tired-out feeling, ac-  
companied by constant headaches and  
nervousness made it difficult for me  
to work and all the medicine I tried  
did not seem to benefit me until I  
heard of the famous Cooper's  
New Discovery. I quickly drove the  
poisons out of my system and every-  
thing of my illness disappeared. I  
consider it a wonderful spring and  
fall medicine and now am never with-  
out it."

Cooper's New Discovery is the medi-  
cine with which L. T. Cooper has ac-  
complished such remarkable results  
in cities visited by him in cases of  
catarrh, deafness, rheumatism, stom-  
ach and kidney troubles, blood  
diseases, and sells for one dollar per  
bottle. Cooper's Quick Relief, the  
assistant remedy which is used in con-  
sultation with the New Discovery costs  
fifty cents.

The special agency for Cooper's  
medicines has recently been granted  
to E. B. Heimstreet of this city.

Perring Saved Semi-Professionals  
from Being Whitewashed, Ham-

[SPECIAL TO THE GAZETTE.]

Edgerton, Oct. 26.—All Edgerton,  
assisted by several hundred baseball  
fanatics from Janesville, Stoughton,  
Madison, Evansville and numerous  
other cities of southern Wisconsin, to-  
day celebrated the visit of the famous  
White Sox team, the Chicago Ameri-  
can League club that captured both  
league and world-championship pen-  
nants this season. Everywhere there  
were decorations of white socks and  
stockings and black and white ban-  
ners with the letters "White Sox"

verre in possession of everybody. The  
team arrived from Chicago shortly  
after eleven o'clock and were given  
enthusiastic welcome at the depot.  
They were formally escorted to the  
Carlton hotel by the Edgerton com-  
mittee and informally escorted by sev-  
eral hundred Edgerton and about sev-  
enty-five Janesville devotees of the  
diamond game. At the hotel H. C.  
Sloan made a short address and pre-  
sented the manager of the Sox with  
the key to the city. Nearly five hun-  
dred enthusiasts came on a special  
train from Madison and Stoughton.

Gate Receipts Were \$500.

In spite of the threatening weather  
the grandstand at the driving park  
was crowded when the game was cal-  
led in the afternoon. From the be-  
ginning it was easy to see that the  
semi-pros of Edgerton could not hold  
down the Sox and for a long time it  
appeared that they would not even  
score. But the mighty Perring came  
to the rescue and slammed out a  
home run hit off Attract, bringing in  
one score besides his own. This was  
all that prevented a whitewash. The  
teams played as follows:

Monday evening, Oct. 29—David Proctor in the fantastic comedy "A Message from Mars."

Thursday evening, Nov. 1—Edith Foy and company in the musical comedy "The Earl and the Girl."

Ben Hendricks, the popular dialect comedian, appears at the Myers theatre tonight, in his favorite comedy, "Old Olsen." The drama is one of the purest and cleanest cut in its tone and is a play that is full of surprises and climaxes. It unfolds a

litted to a higher ideal of life all in one entertainment is rarely our privilege. I hope it may be played in every city in the United States to crowded houses. The tremendous success which this play has scored both in Europe and America proves how wise is the impression maintained by the pessimistic that only immoral and vulgar productions are encouraged in this age. The prominent young actor, David Proctor, is appearing in this play, as the hero, and supported by a company of players of recognized ability, many of whom were members of the original London and New York productions.

This gentleman pursues the English youth throughout the play with a huge revolver and it requires no great stress of imagination to picture the cowboy make-up in English surroundings. The young Englishman is also pursued by a beautiful but muscular strong woman, whose daughter has been jilted by the scion of Britain's nobility. To throw off this accumulation of trouble he engages one Jim Cheese. An itinerant dog trainer, a part in which Edith Foy has made a tremendous hit, to impersonate him for one evening. Hence, the things that should happen to the real nobleman occur to the bogus dog-training nobleman.

At a fancy dress ball all the parties meet. After a series of side-splitting incidents and complications, order comes out of chaos and everything ends happily.

There are twenty-two song hits, all of which are of a character that will interest those pickeringly inclined. The sales on two of these, namely: "How'd You Like to Spoon With Me?" and "I Would Like to Marry You," have reached enormous proportions and are constantly being played by all the large hotel orchestras in New York City.

Theodore Roberts, who had the name part in "The County Chairman" upon the first presentation of Ade's comedy in Janesville, will play the role of "Don Julian" in William Faversham's production of "The Great Detective," the masterpiece of Jesse Becherer, Spauld's greatest living dramatist. The premiere is to be in Boston a few weeks hence.

We Only Think We Think.  
Eau Claire Leader: "We are not thinkers, we only think we think," said the distinguished Chicago university professor to his large Eau Claire audience on Friday night. He continued: "There are a few thinkers in the world, men who do all the thinking for the rest of us. They are men at whom we laugh while they are alive and to whom we build monuments when they are dead." The tone of pessimism was sugar coated with humor, but was there just the same—perhaps the Chicago orator has not sized up the situation with exact correctness.

## OUR SATURDAY NIGHT

"Any one can carry his burden, however heavy, till nightfall. Any one can do his work, however hard, for one day. Any one can live sweetly, patiently, lovingly, purely, till the sun goes down. And this is all that life ever really means."

This sentiment, by an unknown author, expresses the philosophy of life at its best and is well worth cultivating. While the burdens of life may not be evenly distributed it is well to remember that they fall to the lot of average humanity and it happens, not infrequently, that the heaviest burden-bearers are the most patient and uncomplaining.

The boy who commences life crippled in body or deformed is handicapped in many ways, but he always carries his own burdens and nothing is more offensive to him than sympathy.

The governor of a state a few years ago was speaking to an audience of blind people. He was so affected as he looked into the eager, upturned faces with sightless eyes that he addressed them as "the poor unfortunate class." A wave of indignation swept over the little audience and later the speaker apologized for misdirected sympathy.

The blind, like many other people who carry the real burdens of life, bear them cheerfully until nightfall. These burdens never disturb their slumbers; neither do they greet the waking hours as a nightmare.

These conditions exist, not because the burden is light, but because the philosophy of life has been analyzed and its hard requirements met in a spirit of fortitude worthy of the hero.

The blind man and the cripple seldom complain of his lot. He carries his own burden with a cheerfulness worthy of imitation. But these classes are so largely in the minority that they do not represent average life with its long list of real or imaginary burdens.

A limited observation discloses the fact that we live in an age of invalidism. It is a rare thing to find a man or woman who claims to enjoy perfect health. The bottle of Peruna in the closet or the tablet for indigestion after the meal is a part of the daily program and people entertain each other by telling how much they "enjoy poor health."

This poor health burden is scattered along the highway of life more profusely, perhaps, than any other class of troubles, for people are inclined to be generous; and the man or woman who is cultivating a disease always enjoys sharing the prospect with friends and neighbors.

The trouble with the most of us is that we have nerves, and while they are so carefully protected that we never see them at work, yet they are the busiest part of our organism.

A cup of good coffee at midnight after an evening's function gives new zest to the outfit and before morning trouble enough develops to load a man down with burdens which will tire him out long before nightfall and cause him to divide the load with the first acquaintance who happens along.

There is something contagious about nervous diseases and they are the worst diseases known to the human family because they are not only troublesome to the victim but they breed trouble in the community.

There are a number of men whose presence has been missed from the city for twenty years. They rest at Oak Hill prematurely because of wives who were victims of nervous diseases and who spent their time in bed cultivating the microbe, while their husbands struggled under the double burden until tired nature yielded to the strain.

The nervous wives live on, hale and hearty, and through it all enjoying the sympathy of nervous friends because of the contagion of the disease.

There are monuments in the same quiet retreat which mark the resting-place of women who should be alive today and who might be but for the fact that they carried the family burdens unaided by the men who agreed to help, but whose nerves were unequal to the strain.

The burden of sorrow, which falls to the lot of humanity, is so common and so evenly distributed that the race is a race of sorrow burden-bearers and yet sorrow is sometimes selfish.

Some years ago a young man stood by the side of the casket which contained all that was mortal of the girl to whom he was betrothed.

His sorrow was keen and bitter and he paced the floor like a maniac, while the family and friends waited for the last sad service to begin. Yet in less than a year he had forgotten the girl who died, while the mother carried her burden of sorrow for years, suffering loneliness and anguish uncomplainingly.

We are apt to think when death enters our home that the sorrow is peculiar, and that no other home is thus afflicted, and yet every moment of every day in the year the experience is being repeated all over the wide world. This kind of sorrow entails a burden, which must be carried alone, and while human sympathy may be helpful, it should never be imposed upon.

The best way to relieve personal burdens is to bear them cheerfully and with a disposition to help others who are more heavily laden.

Many people add to the weight of burdens by cultivating the yesterdays of life. The past with all its disappointments and failures is the ever attractive panorama which engrosses attention.

Regrets and disappointments are the topics discussed for the entertainment of friends and a halo of gloom envelops them and burdens the atmosphere which surrounds them.

Others live in the future and life is one constant round of anticipation. While hope should be encouraged, it is well to remember that history is made day by day and the faithful performance of the duties in hand is more significant in shaping destiny than day dreams of an uncertain future.

"Any one can live sweetly, patiently, lovingly, purely, till the sun goes down and this is all that life ever really means."

## THE HOSPITAL MOVEMENT

Some \$2,000 is in sight towards the \$5,000 which must be raised to secure the Sisters of Mercy hospital. The committee soliciting funds is having all kinds of experiences for the question of public spirit enters largely into the deal and this question is so abstract when it touches the pocketbook that many people turn it down.

Everyone admits that a well-equipped modern hospital large enough to accommodate all comers would be a good thing for the city. This is just what the proposed plan means, for the building will be enlarged and not less than thirty beds installed within a year. It means much more than this, for wards will be maintained where patients will receive the best of care at from \$7 to \$10 per week. Emergency cases of all kinds will also receive the best of care.

This is the best opportunity ever presented for some philanthropic person possessed of the means to come to the front and help the cause along. The late William Payne gave \$2,000 to the Oak Lawn hospital years ago and Mrs. William Tallman contributed \$800 for an operating room. The hospital failed because it was not established on a permanent basis and the bequests were lost when the property was sold under mortgage.

Donors to the Sisters' hospital need fear nothing of this kind, for hospitals of this class never fail. The money should be contributed cheerfully, for the object is most worthy. Janesville can support an institution of this kind with from 50 to 100 beds and it would be a credit as well as a blessing to the town. The committee is entitled to substantial encouragement and if it is accorded the hospital will be secured.

Oshkosh Northwestern: The Milwaukee Journal seems determined to make a "boss" out of Chairman Connor in spite of himself.

Another Impending Horror  
El Paso Herald: When they begin to train phonographs to make political speeches, the limit of American tolerance is almost overpast.

"Bully Good"—For Instance.  
Rockford Register-Gazette: Would not you like to read some day of a

hostess who served refreshments that were not "light" or "dainty."

Finally, Quit Quibbling  
Edgerton Eagle: Monday evening the Janesville council quit quibbling, swung into line to a man, and gave Mr. Clough his much-desired interurban franchise for a Madison-Janesville electric line.

Knees Powdered Yet?  
Pittsburg Gazette-Times: Scotch costumes are all the go in Paris and next year, no doubt, they will be in vogue over here. Then it will be up to every true gentleman to powder his knees.

Has "Rheumatic Flavor"  
Evansville Review: There seems to be a new break out of the grippe in this section, this season. It takes the muscles of the back with a sort of rheumatic flavor, and its hold more tenacious. Many of our people are complaining of it. What next?

Sensational Boom Likely  
Evansville Review: After many extra sessions of the council of Janesville, a franchise was granted to H. H. Clough, who proposes to build the Madison-Janesville electric line. The towns along the line of the proposed road will now experience a sensational boom.

Bernard Shaw in Vaudeville  
Chicago Record-Herald: George Bernard Shaw, who can be very clever and bright and brilliant when he chooses to stick to his forte, comedy, can also be very tiresome and dull. Standing on the head for a whole hour, even on the comic platform, is a feat that is calculated to drive away, rather than to delight, the average audience.

Mr. Shaw has written a new play, and he says that it is "astonishingly good." He didn't know, he adds, that there was so much resource yet left in his brain. This will excite general curiosity, and Mr. Shaw will be expected to "make good." But meantime his so-called lectures on grave topics are proving that he can also be astonishingly flat and cheap.

He has been assailing the existing religious systems, declaring that none is worthy of acceptance by an educated man, and making foolish fun at the ten commandments. Children, he said, should be taught to worship Mammon, the trouble in this world arising mostly from insufficient appreciation of the value of money. By stretching and straining an idea may be read into this paradox, but who will do the stretching and straining? The clown is amusing in his place, but that place is not the sociological lecture platform.

Again, Mr. Shaw objects to the "Thou shalt not kill" injunction. We don't kill enough people, he says. "There are large classes in the community who ought to be killed." The man who cannot prove before a public inquisition that he does as much for society as it does for him ought to be sent to the lethal chamber.

There's a grain in this chaff. Mr. Shaw means to say that every citizen should justify his existence by honest activity of some sort. But he says it upside down, as it were. In a society of just laws and right conditions it is not necessary to make people prove affirmatively their right to live. The worthy citizen will have no occasion to submit to an inquisition. It's the rascals and offenders who will be called upon to justify themselves.

Shaw wished to be "cute" and "audacious," but he falls sadly short of Ruskin and Huxley in this remark about killing people. Ruskin said in his "Fors" that only bishops deserved hanging, and Huxley, in discussing crime and the social order, remarked that many a good citizen ought to be taken out and hanged.

If Shaw cannot even be original in his best "turns" he had better abandon the lecture-vaudeville form of entertainment and divide his time between Fabian tracts and sheer farce-comedy.

On the gridiron, at Athletic park this afternoon the Beloit and Janesville high schools are trying conclusions. The game was called at half past two o'clock with Dr. G. B. **Society..**

Mrs. B. L. Booley of Fargo, North Dakota, daughter of Mr. and Mrs. A. H. Sheldon of Janesville, welcomed the North Dakota Federation of Women's clubs at their opening session in Fargo last week Wednesday. Her address was delivered in behalf of the Woman's Club of which she is president and the three other organizations of the city. The following interesting excerpt from her remarks is taken from the Fargo Forum: "There are those who shake their heads and say: 'Our grandmothers never did these things,' or 'give me the old fashioned women,' etc. But I claim it is a very different thing, this being a woman, from what it was in the days of our grandmothers. We may as well admit at the very start that, however much we may want to discuss it, woman's sphere was settled long ago without consulting us a bit about it. We are and have always got to be the home-makers of the world. But this home-making is a very different thing from what it was in our grandmothers' day, and it is growing every year more complicated. To be sure there are those who insist that this is a divine gift bestowed upon women, this gift of homemaking which comes to us without our giving it any particular thought or intelligence. All of us agree that it requires a divine gift, this task we have to accomplish; this taking of all sorts of food adulterated with every kind of poison to feed our families, drugs concocted impurely to give our sick ones, clothing to dress them, made in sweatshops at a price every woman should blush at—often water for our daily use which is a disgrace to a free city, gas and electricity which we pay for and do not get, sanitation which is unsanitary, schools for our children in the control of which we have little to say, and behind and above all the great shadow of the servant question—taking all these, I say, just as they are thrown at us, we are to weld them into the ideal home, an example of purity and honesty for our children. Is it any wonder that some women fail?"

Mrs. J. F. Sweeney will be in charge of the second concert of The Apollo Club next Monday evening. The program follows:

## METCALF TO PROBE JAP COMPLAINTS

SECRETARY TO START INQUIRY AT SAN FRANCISCO.

SEEKS TO STOP RUPTURE

Members of President's Official Family Consider Relations Between the Two Countries Have Assumed Most Serious Phase.

Washington, Oct. 27.—President Roosevelt Friday night directed Victor H. Metcalf, secretary of the department of commerce and labor, to proceed to San Francisco and make a thorough and complete inquiry into the situation affecting the exclusion of Japanese children from the schools provided for white children, and the determination to place Japanese pupils in separate schools.

The president is anxious to obtain at first hand from a cabinet officer who is acquainted with local conditions in San Francisco, full information affecting every phase of the subject, to the end that whatever action is taken by this government may be after an accurate understanding of the situation. The president feels that every effort within the power of the administration should be exerted to see that all the treaty rights claimed by the Japanese for its people residing in the United States should be respected and protected.

**Demand Full Rights.**  
The determination to send Secretary Metcalf to San Francisco was one of the results of the request made by Viscount Aoki, the Japanese ambassador, who at a conference with Secretary Root Thursday asked, in behalf of his government, that the Japanese subjects in California be accorded their full rights under the treaty of 1894, including that of the children to attend the public schools of San Francisco. This request was the subject of very long and earnest discussion at the cabinet meeting Friday, when the conclusion was reached that the best thing to do was to send Mr. Metcalf to California to secure personally all the data which could have any possible bearing on the situation.

The dispatch of a cabinet officer on such a mission, it was argued, would demonstrate to the Japanese the evident sincerity of this government in dealing with the whole subject and its desire to show that every effort is being made to get at the facts.

**Allge Boycott on Restaurants.**  
Incidental to the inquiry into the school question Mr. Metcalf will pay some attention to the charges made by Count Aoki, to Secretary Root, that Japanese restaurant keepers in San Francisco have suffered indignities. These reports, the ambassador says, come from consular officers of the Japanese government in San Francisco.

At least seven or eight reports have been made, concerning a boycott inaugurated against these restaurants and these reports state that agents have been posted to prevent patrons from entering the restaurants and in several instances stones have been thrown and windows broken.

The Japanese officials in Washington say they realize that these demonstrations and the exclusion of the school children are acts local in character but they say it is hard to convince the people of Japan that the central government is not responsible for them.

**Metcalf Man of the Hour.**  
The president considers Secretary Metcalf is well equipped for the work which has been assigned to him because of his duties in connection with the administration of the department of commerce and labor, and of the fact that he is a Californian with a thorough knowledge of conditions existing in that state.

Through the bureau of immigration in his department, the secretary has been in immediate touch with all phases of the immigration question, and his knowledge of the Asiatic element has been that of political experience.

**Situation Is Grave.**  
Administration officials do not hesitate to express privately their views of the present anti-American feeling growing out of the wrongs which the Japanese declare they have suffered, and one member of the cabinet said after the meeting that the general opinion of the cabinet was that the situation was exceedingly grave and would require the most delicate treatment to prevent an open rupture.

The president is doing all in his power to show the Japanese that there is no general feeling against the race, but that the trouble is entirely local and expressed gratification when he learned through Ambassador Aoki that the Japanese press is for the most part attempting to check the feelings against Americans.

Deceased Bachelor's Hidden Wealth Uncovered by His Relatives.

Winona, Minn., Oct. 27.—Believing that Lemuel Hill, an aged bachelor, who died in this city October 19, went to his grave with a secret regarding a fortune, which relatives supposed he had saved during his long life of a recluse, search was begun on his farm at Pleasant Hill, Minn., Friday. The searchers were rewarded after an all day hunt by finding under the floor of the barn personal property belonging to the dead man valued at about \$50,000.

**IT'S YOUR KIDNEYS.**

Don't Mistake the Cause of Your Trouble.—A Janesville Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think it is only a muscular weakness; when urinary troubles set in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Janesville people testify to permanent cures.

Mrs. Annie Kohlhoff, of 230 Cherry St., Janesville, Wis., says:

"Since using Doan's Kidney Pills some years ago for kidney troubles and backache I have had no hesitation in recommending them to every sufferer I have met. I had used many other remedies and tried plasters and did everything I knew of for these complaints, but the trouble grew continually worse, and was fast undermining my general health. About 7 years ago I was in a very bad condition, and it was at that time that I learned of Doan's Kidney Pills and got a box at the Peoples' Drug Co. and began using them. Good results followed quickly and a continued treatment brought me a complete cure. I have never had any kidney trouble since I used Doan's Kidney Pills."

## UTES MOVE TOWARD NORTH

SEEK TO INDUCE CHEYENNES TO JOIN IN RAID.

Ammunition and Supplies Forwarded to Maj. Grierson, Who Is Expected to Continue the Chase.

Sheridan, Wyo., Oct. 27.—Word reaches here that the Utes are now moving and are headed northwest toward the northern Cheyennes whose reservation lies about 50 miles east of Fort Custer, Mont. It is said that their purpose is to induce the northern Cheyennes to join them in some kind of a raid.

Thursday night 1,200 rounds of ammunition was shipped from Fort McKenzie to Maj. Grierson, who is in command of the Tenth cavalry. He is now at Gillette, whence he is expected to go by rail over the Burlington to Arvada, which will bring him within about 50 miles of the Utes. To reach them he will move down the Little Powder river.

Col. Rogers, in command of the Sixth cavalry from Fort Meade, has not been heard from since leaving the post, but it is expected that as early as Sunday afternoon the two commands will reach the Indians, where a cooperation is expected between the two regiments of cavalry.

In the two commands there are ten troops of cavalry—about 500 men, besides the officers and teamsters.

Additional supplies have been forwarded to both commands.

**HIT TEMPERANCE TEXT-BOOKS**  
Teachers Score Special Treatises on Alcohol and Tobacco.

Battle Creek, Mich., Oct. 27.—The leading feature of Friday's sessions of the Michigan State Teachers' association's annual convention, which is being attended by 7,000 teachers, was a spirited and unanimous attack upon the anti-alcohol and anti-tobacco text-books used for the study of physiology and hygiene in the public schools of Michigan.

Several speeches were made condemning the books, and all the speeches were enthusiastically applauded, no dissenting voice being raised.

The books were opposed on the ground that the anti-alcohol and anti-tobacco teaching was so extravagant as to defeat its purpose.

The books were introduced in the schools some years ago at the instance of the W. C. T. U.

## ..Forty Years Ago..

Janesville Daily Gazette, Saturday, October 27, 1866.—First sleighing of the season. There was quite a snow-storm this morning and enough fell to tempt the ambitious for the first sleigh-ride. Major Middleton carried out his riding through the streets in his sled and with the bells jingling merrily. We think he has had the first sleigh-ride of the season in these parts.

In Police Court.—A few days since the room of Messrs. Clark on Main street was entered and several articles of value stolen therefrom, among which was a watch. Suspicion rested on a family by the name of Langhoff, who occupied rooms in the same building, and a search warrant was issued to investigate their premises and the premises of Mrs. Tubbs, in his being able to do a day's work again. At the latter place nothing was found but a lock of hair was voluntarily produced by Mrs. T. who said she obtained it from her mother in the rooms of Langhoff a number of the missing goods were found. The parties are immediately brought up but the examination was postponed.

## A Weak Heart

Seldom gets strong again without help. Awake or asleep, it never stops, and consequently has no period of rest or relaxation in which to regain lost vigor. You should avoid exertion, excitement and worry as much as possible, to relax the strain, and take Dr. Miles' Heart Cure, which is a heart tonic, to strengthen and restore vigor to the heart nerves and muscles. The symptoms of a weak heart are shortness of breath, palpitation, feeble or too rapid pulse, hungry spells, hot flashes, dizziness, smothering spells, pain in heart or side, etc.

I had been treated for heart disease by different physicians without any improvement. Finally my doctor informed me that there was little hope of my ever being able to do a day's work again. About that time a gentleman called upon me and said, "I heard of your condition, and have come to tell you that Dr. Miles' Heart Cure saved my life, and I want you to try it." I did so, and after a week or so I went to my physician and told him I had been taking Dr. Miles' Heart Cure. He examined me and said, "God bless Miles' Heart Cure, it has made you better in a few days than I ever expected to see you again." I am now well, having fully regained my health by the use of this remedy.

Mr. Barnes next brushed the charred ashes from the grate upon a newspaper and carried them to the window in the front room. His examination satisfied him of two things—the murderer had burned the bits of cloth cut from the various garments and also a number of letters. That the fellow was studiously careful was plain from the fact that the burning had been thoroughly done. Nothing had escaped the flame save two buttons with a bit of cloth attached and various corners of envelopes. With disgust Mr. Barnes threw the ashes back where he had found them.

Next he paid his attention to the cabinet desk, which stood open. He pulled out all the drawers and peered into every nook and cranny, but his search was fruitless. He found nothing but blank paper and envelopes, and these of common kind.

Once more returning to the room where the corpse lay he noticed a trunk from which protruded a part of a garment. Raising the lid he found everything within in a promiscuous pile. Evidently it had been hastily searched and carefully repacked. Mr. Barnes took each article out and examined it closely. Everything upon which a name might have been written showed a place where a piece had been cut out. "There must be some good reason for hiding this woman's identity, or the scoundrel would not have been so thorough in his work," thought Mr. Barnes. Just then, in replacing the clothing, he heard a crinkling sound which indicated that a bit of paper was in the pocket of the garment. Hastily he withdrew it, and was delighted to observe writing. "A claw at last," he murmured, hurrying to the front room window to read it. This was what he found:

# THIS WILL EXPLAIN TO YOU WHY A FAVORITE BASE BURNER

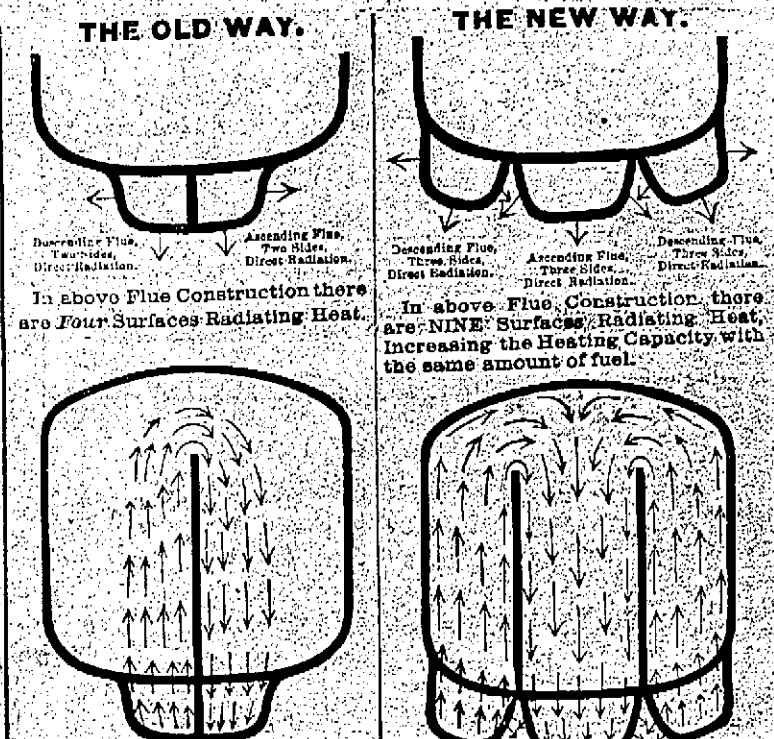

Will produce as much heat with 2 1-2 tons of coal as others will with from four to five tons.

box, it is also made so the pan cannot shut it off, and is located where it cannot burn out and bind from heat.

This cut also illustrates the surface to which the ash pit door is fitted, which is finished with milling machinery, and the door is fitted with planing machinery, which is the most perfect process known for fitting surfaces. No other stove is made with these features named. The size of the extreme bottom, all the flues, ash pit, space around the grate and grate surface could all be contracted in the Favorite in width and depth over two inches each way, and the fire pot kept the same size at the top.

THESE Diagram Cuts make very plain some of the advantages in the Favorite Base Burner as compared with others. Notice how the heat is distributed through the flues in the bottom—it all comes to the front through the side bottom flues and then passes back through the center flue; this equally distributes the heat over the bottom. The sides of the flues and ash pit each being in one piece, make the entire sides from the top of the ash pit to the leg base radiating surface. See the hollow projecting pockets in the bottom to which the flue strips are attached; these in connection with the deep pocket around the outer edge of this bottom greatly increases the radiating surface and the strength of the bottom. Notice the strength of the check draft register at the rear of the ash

Above cut illustrates the arrangement of Bottom Flues in nearly all base burners, showing the heat is not equally distributed.

The "Favorite" Base Burner has More Heating Capacity and is the Most Economical Stove ever made. Why? Because it has about 10% more Radiating Surface as compared with same sizes of other base burners, and is Mounted and Fitted Perfectly.

Tip for Eyeglass Wearers.  
Wearers of eyeglasses have noticed how they become dim when subjected to a sudden change of temperature—as, for instance, when the wearer goes from the cold outer air into a warm room. This may be prevented by rubbing the glasses with soap every morning. They may be polished bright after the soap is applied, but an invisible film is left on them that will prevent the deposit of moisture.
